What's New4

Fixed Issues5

What's New

The following table details the new features and functionality included in this release.

ID	NetSuite	New Feature Release Note
CHM-6660	—	<p>The Item Record window has been updated in Virtua Client. The “Unsuccessful checkin” error message has been updated to read as follows:</p> <p>“Checkin could not be completed because of a mismatch between the number of pieces checked out and the number being checked in. Please disable the Circulate Pieces field in the item record and try your checkin again.”</p> <p>This addresses an issue where the Circulate Pieces and Number of Pieces fields were enabled after the item was checked out.</p>

Fixed Issues

The following table details the fixed issues for this release.

ID	NetSuite	Fixed Issue Description
CHM-6666	—	<p>The Item Information window has been updated in Chamo. The “Checkin does not satisfy an item request” message now displays only when the associated Bib level request is active.</p> <p>This addresses an issue where expired or inactive Bib level requests also returned this message.</p>
CHM-6707	—	<p>The Guest user feature has been updated in Chamo. Guest users can now perform Browse, Keyword, Heading, and Control Number searches when logged onto the Virtua Client.</p> <p>This addresses an issue where searches could not be performed due to a problem with REST API authentication.</p>
