What's New

Virtua Client

Acquisitions

The following table details the new features and functionality included in this release.

ID	NetSuite	New Feature Release Note
VIRTUA-20454	21551	The Acquisitions Audit Trail and Transaction Log windows have been updated in Virtua. The Search and Close buttons are now located with the search filters at the top of the window. They were previously located at the bottom of the windows.
VIRTUA-20504	17004	The Add Invoice Request window has been updated in Virtua. The Repeat This function now applies the selected vendor to a new invoice. This feature was not available in previous versions of Virtua.

Cataloging

The following table details the new features and functionality included in this release.

ID	NetSuite	New Feature Release Note
VIRTUA-20390	14655 15977	<p>The Patron Editor window has been updated in Virtua. The following tabs on this window can now be hidden:</p> <ul style="list-style-type: none"> • Secondary Address • Passport • Academic Info • Corporate Name <p>This feature has been added because the information included in these tabs is optional.</p>
VIRTUA-20443	–	<p>The Patron Cataloging Options window has been updated in Virtua. The City field is no longer a required field on this screen.</p> <p>This feature is managed with a City check box. This field is required on the Patron Editor window when the check box is selected and optional when not selected.</p>

Circulation

The following table details the new features and functionality included in this release.

ID	NetSuite	New Feature Release Note
VIRTUA-20448	15366	<p>The Loans/Pages window for consortia has been updated in Virtua. A Pickup Location field has been added to both the Outstanding and Denied tabs on this window. This information is now immediately available when making loan decisions.</p>

Library of Congress

The following table details the new features and functionality included in this release.

ID	NetSuite	New Feature Release Note
VIRTUA-21496	526698	<p>LOC Only: The Invoice Voucher window has been updated in Virtua. The Total in USD field can now be edited even if the voucher has a status of Paid in Full. This allows for updates to reflect changes to the amount paid in USD versus foreign currency.</p>
VIRTUA-23656	–	<p>LOC Only: The Binding List Title window has been updated in Virtua as follows:</p> <ul style="list-style-type: none"> • The Country and Material Type drop-down lists no longer allow values to be entered. You can now select one of the listed values. • Searches can no longer be performed without first selecting a filter. <p>These functions were available in previous versions of Virtua.</p>
VIRTUA-24103	–	<p>LOC Only: The Bulk Serials Check-In window has been updated in Virtua. The following operations are now logged in the operation_log database table:</p> <ul style="list-style-type: none"> • Add Issue • Modify Issue • Delete Issue • CheckIn Issue • UncheckIn Issue

InfoStation

The following table details the new features and functionality included in this release.

ID	NetSuite	New Feature Release Note
VIRTUA-20430	18677	The Order Status Report has been updated in Virtua. A Date Sent field has been added to Order Status Report. This field was added as a compliment to the Date Created field to reflect the date that a batch is actually sent.

Fixed Issues

Virtua Client

Acquisitions

The following table details the fixed issues for this release.

ID	NetSuite	Fixed Issue Description
VIRTUA-6704	–	The Add PO Request window has been updated in Virtua. A new vendor is now available immediately on the Vendor drop-down list after it has been added to the system. New vendors did not display on the list until a user logged out and back in again.
VIRTUA-14848	790653	The Add PO Request window has been updated in Virtua. The line item of a PO with missing location data is now included in the system warning message.

Cataloging

The following table details the fixed issues for this release.

ID	NetSuite	Fixed Issue Description
VIRTUA-23744	–	The Item Information window has been updated in Virtua. Entering the first few characters of a location in the Location list now scrolls to the desired location.

Circulation

The following table details the fixed issues for this release.

ID	NetSuite	Fixed Issue Description
VIRTUA-14638	–	The patron.wfm and patrnlab.wfm forms have been updated in Virtua. The first indicator is now blank for tag 247 on both forms. The numeral “1” appeared as the first indicator in previous versions of Virtua.
VIRTUA-21426	–	<p>The Item Record window has been updated in Virtua. The “Unsuccessful check-in response!” error message no longer displays when:</p> <ul style="list-style-type: none"> • The Circulate Pieces field is enabled. • The Circulate Pieces and Number of Pieces fields are changed after the item is checked out.
VIRTUA-21618	–	The Request Wrapper form has been updated in Virtua. Non-Roman patron names no longer print out as bad characters on this form.

Library of Congress

The following table details the fixed issues for this release.

ID	NetSuite	Fixed Issue Description
VIRTUA-21084	411112	LOC Only: The Vouchers Report has been updated in Virtua. Fixed the problem with voucher discrepancies reported after upgrading to 15.2.SP1 InfoStation. The Acq_report_7.cgi file was modified to address this issue.
VIRTUA-23709	–	LOC Only: The Binding List window has been updated in Virtua. A template no longer needs to be selected when there are no receipts to print. This was required in previous versions of Virtua.
VIRTUA-24007	–	LOC Only: The LOC Shipping Boxes window has been updated in Virtua. Inserting items into LOC Shipping Boxes for 05-NEW YORK PUBLIC LIBRARY no longer produces a system error message.
VIRTUA-24101	782398	LOC Only: The LOC Shipping Boxes window has been updated in Virtua. “The server has closed the connection” error message no longer displays when the Insert Items button is clicked.

Virtua Profiler

The following table details the fixed issues for this release.

ID	NetSuite	Fixed Issue Description
VIRTUA-6034	–	The Arabic Stop Words window has been updated in Virtua. The name of this window has been changed to Exceptions to Stopwords to more accurately reflect the function of the window.
VIRTUA-21156	402989	The Root User Profiler permissions have been updated in Virtua. The root user in a consortium database is now able to add Library Calendars, Library Hours, and Closed Dates for any Institution.

Virtua Server

The following table details the fixed issues for this release.

ID	NetSuite	Fixed Issue Description
VIRTUA-23700	736775	The “Fixed-Length Required field for SIP” error message has been updated in Virtua. Blank spaces for this field are now allowed with the 3M Driver.

InfoStation

The following table details the fixed issues for this release.

ID	NetSuite	Fixed Issue Description
VIRTUA-20964	363032	The Patron Expiration Reminders Report has been updated in Virtua. Using a single field for all parts of a patron name no longer excludes patron names from this report.
VIRTUA-24011	–	<p>The Patron Statistics Report has been updated in Virtua. The results for the following filters no longer return incorrect results:</p> <ul style="list-style-type: none"> • Institution Name • College or School • Department • Major <p>The values for these filters have been merged with the Patron table so that they work as expected.</p>
